

Schedule Feature

Introduction

Players can use the Schedule feature to customize personalized routines for their VPet. Even when the Player is busy, the little one can remain disciplined and say goodbye to the “slacking off” state without instructions.

Mechanism Details

- **Diverse Combinations** Supports customizing different work and study projects.
- **Multiple Dimensions** Each plan includes various settings such as **Processing Fees**, **Duration**, **Level Requirements** and **Revenue Commission**.
- **Hands-Free Experience** Once enabled, the VPet will strictly follow the predetermined plan to spend each day productively.

How to Use

In the Work Panel, click the “Add to Schedule” function. You can add work, study, or play to the Schedule.

To add work and study to the Schedule, you need to sign plans and agreements with the Work Summary and Training Institutions.

On the Schedule page, you can sort and manage the schedule. Use the (+) plus sign on the left.

You can add break time. Break time must account for more than 29% of the total time to start the schedule. Remember to balance work and rest!
