

HOME

VPet Simulator is a desktop Pet application (game) that supports various interactive features such as feeding. It's open-source, free to use, and fully compatible with the Steam Workshop.

This game is a standalone version of the VPet (tutorial) program built into VUP Simulator. If you like it, feel free to add [VUP Simulator](#) to your wishlist.

Before begin...

VPet is a lighthearted simulation game that lets you adopt a virtual pet to keep you company while you're using your computer. If you're new to this game, this tutorial will help you get the most out of it.
