

Become a wiki/Translation author

Requirements

Steam playtime on VPet Simulator of at least 100 hours.

The reason it's so strict is that the wiki system doesn't support review.

(Although there is an approval feature, you can still see content without approval, so it's effectively non-existent)

How to apply?

Send an email to service@exlb.net including the following information:

- A statement that you're applying for VPet Wiki editing/translation permissions
- The username you'd like to use
- A link to your Steam profile page
- A comment on your Steam profile saying "Applying for VPet Wiki" (you can remove it once your application is approved; it's only used to verify your identity)
