

VPet MOD Documentation

This page serves as the documentation entry point for VPet MOD creators. In the future, it will be used to host MOD introduction pages, usage guides, development documentation, and related creation resources.

MOD creators can create their own documentation pages here to showcase MOD content, features, installation methods, update notes, and other related information.

About Page Creation

This section is currently being gradually improved.

More templates and features designed for MOD creators will be added in the future, making it easier for creators to manage and showcase their work.

Wiki Translation Support

If you are interested in helping improve the wiki or participating in multilingual translations, you may apply to become a Wiki Translator.

Together, we can help improve the VPet community ecosystem and creator content.
